## Walk in Peace

The temporary loss of joyous emo
tion, as one result of God's disciplin tion, as one result of God's discipline,
does not necessarily prevent his chil
dren from walking in peace. When they come to the knowledge of the

His hand maybe laid very heavily upon us, but faith interprets all as
administered in love. Therefore oy may be absent, peace and quite may reign supreme in the soul.
We should not depreciate joy.To"re-

T. L. Cuyler.

| The first duty of husbands is to sympathize with their wives in all their cares and labors. Men are apt to forget, amid the perplexities and annoyances of business, that home cares are also annoying, and try thepatience and strength of thi ir wives. They come home expecting sympathy and attention, but are too apt to have none to give. Frequently they are morose and peevish, and give theirattention to the newspaper, or leave the house, or seek the companionship of menat the club or the store and are left alone and sad, borne down with fanily cares, and longing for sympinthy and affection. A singlekindly word or look to indicate her husb ind's thoughtfulness would lift half the weight of care from her heart. Secondly, husbands should make conthem on their business plans and prospects, and especially on their troubles and embarrassments. A w man's in-tution is often better than all wisdom and shrewdness of her "better hail," and her ready sympa: hy and interest is a powerful aid to his efforts for their mutual welfäre. Thirdly, men should show their love for their manner of treating them, and in the thousand and one trifling offices of affection which may be hardly noti ceable, but which make all the differ ence between a life of sad and uappyfined longing and a cheery, hat existence. Above all, men should |

"never let the fire of love go out, never let the fire of love go out,
cease to show that the flame is burning with unabated fervor." and in knowledge of Jesus Christ
Some tell Some tell us that we find the true
philosophy of Christian growth by reversing this order, and putting the knowledge of Christ first, as the means
of increasing in grace. But the order
of the apostle-grace first and knowledge secould-is the most philosophi
cal. We grow in the knowledge o
Christ through the heart, and not Christ through the heart, and no
lhrough the head. We do know
Jesus till we love him, and the more we love him the more in time our
knowledge of him. The more we Camiliarize ourselves with the perfec haracter of Jesus, the more we shall
dmire him, just as, by studying the dmire him, just as, by studying the
vorks of Angelo, we come to adine
im the more. But admiration is no ove. It kinderes no furnace glow in he affections; it impels the souls on-
ward through no losses and labors, ard through no losses and labors,
self-denials and persecutions, to the
martyr's stake. As the cliaracter of Christ folds its splendors beneath the
long and earnest gaze of the student, he may be growing esthetically by

 the Masters vineyard, or to special

 The Methodist Church, in its or-
ganic form, has now entered upon its
fourth generation. Its growth in num-
bers has met the most sanguine exbers has met the most sanguine ex
pectation of its founders. But there is a general conviction that the mor-
als have degenerated, and the church als have degenerated, and the church
has decreased in piety and suffers from a loss of spiritual poower. There
seemin to be grounds for this convicseeil to be grounds for this convic-
tion when we consider the prevailing
ind fference to experience and classindinerence to experience and class
meetings. Fasting is almost obso
lete. The lack of brotherly love and tellowship is everywhere apparent.
Our observers say "the Methodists are no better than other poepple,",
I. What is the cause of this de cline? -for there must be a cause
somewhere. It is not in our doc somewhere. It is not in our doc-
trines. For the doctrines of the
Methodist Church are scriptural, and in beautiful harmony with both the change has been made in any of the since they were formulated. Th
tendency of both the Arminian an Calvinistic schools of theology is to ward an adoption of the doctrines
Methodism. No compromise of doc trines is made, or demanded of Meth odists. We must certainly look else
where than to our standard doctrines where than to our standard doc
for the cause of degeneracy. or the cause of degeneracy.
2. This cause is not in a 2. This cause is not in a changed
or iipperfect enjoinment of ministe-
rial duties. The duties of both travelıng and local preachers are set forth in very
minute and specific form in the Discipline. No duty is either omitted
or given in doubtul language. An er instructions fiom his principal that the Methodist Church gives to he minisisiets. It is not because the
charch Bast fatiled to give t... righ
orders that she has suffered loss. neglected too much, and the world and church have been allowed to
mix, hence our degeneracy. But the mix, hence our degeneracy. But the
question still arises, What is the
cause of the necessity for the exercise of judicial power? The primal
cause of decline must lie back of the neglect of disciplinary proceedings.
I am satisfied that the primordia I am satisfied that the primordi
cause of decline is in practice. practice, in mnny particularas, has not theories and ministerial instructions,
The practice has been to labor The practice has been to labor for
the conversion of adults and to build up the church from the pews. This has been done at the expense of
culpaible neglect of the children. Wild woods of Amerefica, they were
poor. Houscs had to be built, land cleared and provisions raised. Their lives and property were in jeopardy

COMMUNICATIONS
For the Adrocate.
Rakeish District Conterence.
 Conference hae: it its niueteenth session
in the hospitable oown of Louisburg in the hospitable town of Louisburg
comunencing on Thursday, 2 d of Ju Ju
ly. I qive you a synopsis hurriedly 1y. I give you a synopsis hurre Each
prepared and necessarily brief. Each
of the ifteen pastoral charges was of the fifteen pastoral charges was
-epresented oy its pastor except two,
and besides these there were present hirty four lecal preaciers aud lay del-
erates. Revs. J. IS. Bobbitt, D. D.,
C Cary circuit, and II. A. Watkins, Woidabiy absent.
Thie pieansure of the occasion was
Eiministhed ly the absence of the Presiciing Eitder. Rev. Dr. Wison, the
circumslames of which heightened the regret occasioned by it. The esteen
of the people for this faithful servait
of the cthurch was manifested by kind xpressions of repeated and supplisanctuary and home circle, for resto Thie chair was acceptably filled by
ofhin W. Hays, Ess., of Oxford, whos. urbanity and familiarity with churc) presiding officer, contributed to the
enjorments of the conference sitting enjoyments of the conference sitting
and he ready dispatch of business. Presiding Elder has interfered for time with his immediate oversight
the affairs of the District, the zeal the pastors has been quickened and ed. The renoris indicaie advance
the several departments of the work. It is specially gratifying to note that the church is prosecuting with in-
creased activity its
Sunday.school hary in the District Sunday-schoo
Conference, whose influence is ready seen in several of the charges.
Many Sunday-schaol een esult of revivals. The pastor of th Henderson circuit, notably zealous in
the Sunday-school cause, reported that all the converts of a recent revi val on his charge were nembers of the
Sunday-schoole
The following resolutions intro auced by Rev. W. S. Rone wer
dopted: Resolved, That the non altendance f parents and other older inembers
the church is the principal disor-
anzzing cause in our Sunday.schoo Resolved $\because d$ That no one, because
of age or position in life, is morilly of age or position in life, is morasly
xcusalue for standing aloof and not
being connected with the Sundaychool in some relation.
Resolvcl 3 .l. That the pastors of the
arious charges in the District ar ereby requested to use their influ titcend getting the older persons the Sunday-school exer-
cises.
ap In the main, the church on the
District is growing in spirituality. Here and there a case is reported departure from the strict rule of church duty and obligation. Th
Conference took notice of this an his subject, in resolutions introduce by Rev. T. A. Boone, and every pas
tor is committed to an earnest endea or to restrain the worldy-minded District shows well in its financial op erations. Pastors and delegates speak
hopefully of a successtul yeas in respect. : Building and repairing
churches are in progress in parts of the District. It is eviden that the people appreciate more than
ever before the importance of better and larger houses of worship, and a
moving as means will justify. The are three organized mission fields the District and the pastors are hope
tul of good results from their labor this year. The report from the Brook
lyin and Macellonia Mission show. rapid devecipment in the several de
partimentsof the church, especially a
to accessions, church building and owing resolution without discussio and with but few negative votes:

## Poor Soil Improvement,

The methods of using clover for the enovation of exhausted lands ar simple. The crop is usually fertilizee
with plaster ouly, applied at the rat fabout 100 pounds to the aere on the young crop in late spring or early
June. It is commonly usel partly for dder, at least one cutting being aede early in the seoculd season after seeding; then the second cerop, many be
illowed to grow till quite ripe before it is ploughed inl. If it is allowed to
ither grow still anotier year, a larger mass
of roots aut stubble will be left to ith the aid of this fodder may pur ny where ont the farm, where it it

| The estimates that are given of the quantity of poultry and eggs consu:nsight, incredible, and the question is often asked, "Where do they all come from?" It is stated that the poultry product marketed last year was worthover $8500,0,00,000$ or as much as two of our cotton crops. This amount looks very large, but it is probably rather a low estimate. Even in theface of such a product it is surprising that there are not more poultry and eggs prolueed, as, under proper conabundan.... it less cost than any kind of butchor- meat. Instead, we ob-serve that dicre are few farmers in the Sont! who raise half as manyfowls, ducki, ete., as can be raised on their placers. Oyne oy hogy, are drying up in the fields.
One of tha arguments in tavor of the
no-fence law, and a very strong one too, is that hogs do not die of the
choleca. Now, everyboy knows that
fences do not give hogs cholera, but it fences. do not, giveryboghy knows sholera, but it it
is beeause the hogs that are kept ip is because the hogys that are kepet in
must be fell, while those that run at must be fed, while those that run at
