November 8, 1967

Dr. Wilber T. Dayton
Asbury Theological Seminary
Wilmore, Kentucky

Dear Dr. Dayton:

I am enclosing applications which were received by me during the recent conference at Canton. As I explained to you, there, it has been our policy to Xerox a copy of the application and send the original on to Dr. Petticord for his committee to process. You will notice that dues have been paid in each of the four instances.

We are busy getting our books ready to send to you. We hope to have them in the mail sometime next week.

These members would, of course, be entitled to receive the 1968 Journal. Dr. Wyse, as noted on the margin of his application received Vol. I and II at the convention. From his check you will notice that he assumed his membership entitled him to the two past volumes which in fact it did not. This only illustrates one of the problems you will encounter in the distribution of the Journal-that a few copies will have to be written off as lost each year. I think during the two years we have had the Journal our losses have not exceeded a dozen copies which I think is an acceptable percentage of loss. I would rather record the books as complimentary copies than to raise an issue over the matter. You may feel differently.

Sincerely yours,

Merne A. Harris
