Dear Dr. Dayton:

I have just received your letter concerning Larry Shelton, professor at Azusa Pacific College.

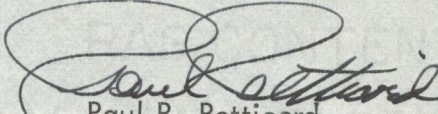

It has been our policy that upon request a person is changed from one relationship to another.

We have done this for several who have changed from a student relationship to a full member relationship. It would certainly appear that Professor Shelton should make this request.

I presume that it would be more appropriate for you to write him a line and suggest that he write me so that I can make the entry into my files and file his request so that it will be properly inserted in the record.

Trusting that you are having a good closing of another excellent school year, I am

Yours in Christ,

Paul P. Petticord
