Dear Dr. Wynkoop:

Thanks for the latest on the WTS meeting this fall.

I think the title of my paper will be simply "Wesley's Method of Biblical Interpretation." That will give me the general area as well as room for creative exploration (I hope).

For the official program there is only one of me-- just Mullen. The "s" I sometimes acquire is pure supererogation.

Hope all is going well with you this summer. We are just finishing up the first session of Summer School here, then I hope to get away from the humidity for awhile.

Best wishes.

Sincerely yours,

Wilbur H. Mullen
