Reverend Dr. Wayne E Caldwell

3 April 1982

Dear Wayne

Thank you for your kind reply to my enquiry regarding colleges etc., in the British Isles that take 'The Wesleyan Theological Journal'. It certainly is a disappointing report in that I would have thought more of the theological colleges this side of the water would take advantage of it. I confess at the same time however that whenever I speak of the society I am met with abysmal ignorance as to the fact of its existence. Whether we can do something about this by sending out some circulars or leaflets, and incidentally I would be willing to do this at this side if they came in bulk, I don't know, I leave it entirely with you.

I am quite happy for you to send to the following two colleges, and if you will bill me annually I will see that they are covered, who knows the day may come when they enter for subscription themselves, let's call this priming the pump ! Firstly I think Cliff College should be in receipt of the periodical, as of all the colleges officially related to the Methodist Church here it is of course well entrenched in sound Wesleyan teaching. Samuel Chadwick as it were still walks the corridors, and they still do a magnificent job. I suggest that you send the periodical to them at the following address:-

Cliff College  
Calver  
Via Sheffield  
S 30 1XG  
England.

You may care to put on it 'For the Attention of Dr. Skevington Wood' and the library, and if you wish to put just a little slip inside with the compliments of myself that is fine. Secondly, please send to Hartley Victoria Methodist

Rev. Dr. William Parkes (Superintendent)

5 Tower Close, Brown Lees, Biddulph, Stoke-on-Trent ST8 6NQ. Telephone 0782 513246.

College. The address is:-

Hartley Victoria Methodist College  
31 Brighton Grove  
Manchester  
M14 5JG  
England

Marked 'For the attention of the Librarian' and again with my compliments.

I will think further about other places, and maybe contacting you again.

All good wishes and many blessings

Brian Parker

Yours sincerely
