Dear Wayne, -

Thank you for your recent letter. You are always so kind and reassuring. I appreciate it. I think you did the right thing in handling the membership applications as you did. I could have taken the embarrassment of making the error but it was very gracious of you to spare the new members from any problem. I am interested in knowing the dates of the lost documents. This "located" for me the period of time in which I destroyed the documents and when my better judgment was recovered. Now, I know that I was recovering when I decided to keep and file the membership applications ^{rather than destroy them.} My feeling was not very efficient but I guess they all showed up. There were other problems in those days, thank God all this finally straightened out - I hope.

I am sending \$118.00 for a full set of the Journals. This is for an interested returning missionary (this fall). There will be further expense, such as postage, etc. Please let me know what I owe so I can pay you. I appreciate your real and gracious courtesy in doing that for us - and for me.

You are a true and faithful Christian friend
So very sincerely
Melvred Wynkoop
