

Lynn Mass Sep. 26. 1857

My dear Mrs

Yours of — has been recd & as usual I am delighted to hear from you & yours.

It can bless you & yours & your husband

But I have been sorely afflicted & in person suffered much, I am my Grand — improving & hope to leave for the Semper leaf at Newburyport next Wed. 30. Inst. — and Mrs. Fletcher Early with me — pray for me much

I wish I could see you — W. D. Wells will be good for a testist or where else — Wilson is good & true but his health can't be relied on — Gony is good for an circuit — but can't manage — a testist & his wife will live in father — as to it — Corning is too much of a Partisan ^{company} — Ward is the man for Charterville testist — he stands well in that region & would do well no doubt — Frank Briggs he will not do for an testist — as a trial shows & it is said — & from a W. D. or two that comes. No one

Long time & hope is to be left out entirely for supporting me as a Minister & not supporting others — now I pray you my friends see to that & don't let those men (either of them) be left out don't — I may mind me this one time — In our Court Messrs — Deputies or a paper & the numerous adverse

is the Verint Apology for a great school paper
if not speedily changed ought to be wound up
The Editor is a man of bad temper & partiality
I should not be an Editor any more - I abhor all
partisan movements - and it would make me think
to be the Old U. S. Congress all in harmony & long man
standing on his own merits -

Now my friend this is purely confidential & what
I can't communicate except to an ^{not} immediate
friend - my love to sister Adeline & children

Affectionately yours

Dr. Cady
