3/4/72

Dr. Delbert Poe
Wilmore, Ky.

Dear Delbert,

If I may be allowed for this hand written note to come get this to you sooner. We are in quarter-end exams and new course preparation, so I knew the hurry times.

Your approach to the WTS program is refreshing. Thanks.

1. Topics
   1. Social implications of Wesleyanism - nationalism, racism, etc
   2. Technological Culture and the implications of the Christian life
   3. "General Engineering" and the Wesleyan common
   4. Jesus and Wesleyanism - A Theology of Jesus
      (Plus Dr. Dunning's suggestions which I would like to see discussed)
   5. Wesleyanism in today's theological world

2. Writing
   Dr. Dunning is doing a superb study on Wesley and law - in which ethical concerns are explored. Very thoughtful & scholarly.

3. I would like us to dialog with scholars outside our circles on some specific subject of mutual (though divergent) interest. Can the dialog or is there a risk of an attempt to put ourviews on the spot? How does this sound to you? Should we regard this as very helpful?

Yours sincerely,

[dated]
