

God, Maker, Mind, Spirit and Activator of the whole universe and all that is within it, we praise and worship thee. As the hot days of summer here in the mountain country are followed by cool and refreshing evenings, we find for our busy and feverish souls and minds a calming and cooling as we concentrate on thoughts of thee.

As late evening stills the voices of little children, so may this be a time of confession and forgiveness in which our anxious hearts are stilled and refreshed by Thee. For we do confess that we do much which is wrong, that we need thy help in overcoming such things, and thy forgiveness for them.

We have been concerned recently with ones of our number who have undergone painful and dangerous medical treatment. We are grateful for their improvement, and we pray that health may rapidly return to them. We are also aware of many

God, Maker, Milder, Spirit and
Liberator of the whole universe and
all that is within it, we praise and
worship Thee. In the hot days of
summer here in the mountain country
are followed by cool and refreshing
evenings, we thank for our day and
evening souls and minds a calming
and cooling as we concentrate on
the things of Thee.

As late evening stills the voices
of little children, so may this be
a time of confession and forgiveness
in which our anxious hearts are
soothed and refreshed by Thee. For
we do confess that we do much which
is wrong, that we need Thy help in
overcoming such things, and Thy
forgiveness for them.

We have been concerned recently
with cases of our number who have
undergone painful and dangerous
medical treatment. We are praying
for their improvement, and we pray
that their recovery be rapid and
complete. We are also aware of many

other needs and problems among ourselves and ~~with~~ among those for whom we are responsible in some ways, and we pray thy help in these areas. Above all, we would have the patience and understanding to accept whatever solution thou dost grant to our problems, in a spirit of faith and love.

During this hour we would be strengthened in understanding and faith because we have drawn near thee.

We pray in Jesus' name. Amen.

...then needs and problems known our
selves and others know those for
whom we are responsible in some ways,
and we pray for help in these areas.
Above all, we would have the patience
and understanding to accept whatever
solution they last want to our prob-
lems, in a spirit of faith and love.

But in this hour we would be
strongly led to understanding and
faith because we have drawn near
toe.

We pray in Jesus' name, Amen.
