Att: Mr. Walter Cobb

Re: Sound Reinforcement system in Bradshaw Room, Duke Memorial
Methodist Church - authorization to install.

Dear Mr. Cobb:

This is to confirm my verbal authorization to you covering the furnishing and installing a sound reinforcement system in the Bradshaw Room of the Educational Building at Duke Memorial Methodist Church as agreed (for \$400). This system covers the following:

1. 6 only 8" high quality speakers installed in ceiling with ceiling matching grills (to be Lowell speaker kits). The east side middle speaker is to have a cut-off switch accessible on the face of the grill. Each speaker is to be equipped with an isolating transformer.
2. 40 watt high quality amplifier mounted in a ventilated but locked cabinet to be located in the coat closet located in the southwest corner of the room (new corridor). The amplifier is to be preset and cut off and on by a toggle switch (installed by others) in the power circuit, with a small pilot light (installed on the outside of the above cabinet) as an on indicator. It is to have one input equipped for a low impedance microphone.
3. One (1) low impedance high quality dynamic microphone (equivalent in quality to an Electro-Voice No. 664) with both floor stand, table stand and 25' of mike cord with Cannon plugs.
4. Install two microphone cord receptacles - one at the north end of the room and one on the east side so as to permit orienting the seating in two possible ways (facing north or facing east). Both receptacles are to be on the same "input".
5. The exposed cable wire mould, inclosures and receptacle boxes should blend with the present decor of the room as far as possible.

Mr. Walter Cobb

It is hoped you will be able to accomplish the installation of this system soon. Thank you for your help.

Sincerely,

W. K. Howard
