Durham, N. C.

Att: Mr. Laney Funderburk

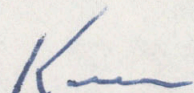

Dear Laney:

Pursuing requests made of me at the last board meeting, I am supplying the following estimates:

1. To provide a professional acoustical study and report for the sanctuary \$500 - \$750
2. To acoustical treat ceilings of the entire sanctuary not under balcony)
 - A. Felt and canvas painted \$25,000 - \$30,000
 - B. Mineral tile cemented to present plaster and fastened with special nails for safety \$18,000 - \$23,000
 - C. Installation of acoustical plaster - painted - installed over present plaster \$35,000 - \$40,000
3. An alternate acoustical treatment of the sanctuary that would provide significant acoustical improvements in lieu of above item 2 A,B, and C is to apply mineral tile on selected plastered walls and in addition apply stained cork panels on back wall under balcony \$2,500 - \$3,000

I hope the above estimates will be helpful. Please advise if I can be of further assistance.

Sincerely,

W. K. Howard
