### APPRECIATION — CHALLENGE

We are grateful to all who are supporting the Church in such a fine way in their prayers, their service, their presence, and their gifts. As we approach the half-way mark in our Conference Year, we are aware of the contribution so many have made and are making to the total life of the Church.

I do not speak often of the financial program of the Church, but at this time I feel called upon to make a brief statement to the congregation. Through the first five months of the Conference Year payments on pledges have been most gratifying — in fact, the best for a similar period during the years of my ministry here. I sincerely hope that during the month of December all our people will continue to maintain this good record and keep their payments up to date.

The total cost of the Building Program, which includes all contracts and fees, campaign expenses, insurance, interest paid during construction, furnishings, and equipment is \$451,191. At the present time \$386,141 of this amount has been paid and we lack only \$65,000 of paying the total cost. We hope that those who are still paying on their pledges will make a special effort to pay as much as possible during this month. A new interest payment on our loan must be paid on January 1, 1965, and all payments made on principal during this month will make the interest payment smaller.

I am proud of what my people have done in this tremendous undertaking and I am sure all will want to do their best to bring this part of our program to a successful conclusion as soon as possible.
