

Report of the Associate Minister

Fourth Quarterly Conference

March 4, 1964

The wonderful spirit and fine cooperation of the "people called Methodists" at Duke Memorial Church makes possible another good report by the Associate Minister. During the period of this report many things have taken place that, if not showing immediate results, we hope have laid the foundation for more effective work in the future.

The progress on our Educational Building has stirred much interest in the program of Christian Education. Many of our teachers and workers have been drawn into phases of planning for the new building, and plans have been made for further teacher training and preparation in anticipation of the occupancy of this fine educational facility.

The church school program is adequately staffed and the fine work of these people is reflected in a growing awareness of the work of the church and of the causes of Christ.

In addition to the direction of the program of Christian Education, the Associate Minister has participated in these other local church activities:

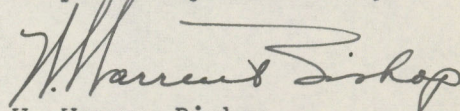

- Visitation of prospective members
- Visitation of church membership
- Participation in church administration
- Preached, held prayer meetings
- Assisted in conducting funerals
- Performed three weddings
- Participated in many phases of planning and preparation of new facilities and renovated areas of the church plant for use

In work beyond the local church, the Associate Minister is:

- Serving as Dean of Christian Workers' School for 1964-65
- Serving as member of Camp Committee of the Board of Education

For this opportunity of service, and for the guidance of God's Holy Spirit, the Associate Minister is deeply grateful. His concern is that these efforts will bear fruit in a deeper loyalty, love, and obedience to God and greater service to our fellow man.

Respectively submitted,

W. Warren Bishop
Associate Minister

March 4, 1934

The wonderful spirit and fine cooperation of the "people called Methodists" at Luke Memorial Church makes possible another good report by the Associate Minister. During the period of this report many things have taken place that, if not showing immediate results, we hope have laid the foundation for more effective work in the future.

The progress on our Educational Building has stirred much interest in the program of Christian Education. Many of our teachers and workers have been drawn into phases of planning for the new building, and plans have been made for further teacher training and preparation in anticipation of the occupancy of this fine educational facility.

The church school program is adequately staffed and the line of work of these people is reflected in a growing awareness of the work of the church and of the cause of Christ.

In addition to the direction of the program of Christian Education, the Associate Minister has participated in these other local church activities:

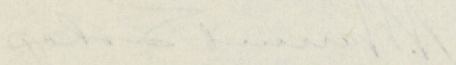

- Visitation of prospective members
- Visitation of church membership
- Participation in church administration
- Preached, held prayer meetings
- Assisted in conducting funerals
- Preached three weddings
- Participated in many phases of planning and preparation of new facilities and renovated areas of the church plant for use

In work beyond the local church, the Associate Minister is:

- Serving as Dean of Christian Workers' School for 1934-35
- Serving as member of Orem Committee of the Board of Education

For this opportunity of service, and for the guidance of God's Holy Spirit, the Associate Minister is deeply grateful. His concern is that these efforts will bear fruit in a deeper loyalty, love, and obedience to God and greater service to our fellow man.

Respectfully submitted,

Warren Bishop
Associate Minister
