Dear Prof. Dr. Bultmann:

I was most pleased to receive your letter of July 24th. Please accept my apologies for sending you such a dim copy of "The Alleged Structural Inconsistency in Bultmann." Now, I am happy to say, that essay has been published in the Journal of Religion and I am sending you a copy.

If you should have any comment on my essay I would greatly value it. Especially I would like your comment on the point which I make in the last paragraph of page 195 of the Journal of Religion article, in which I suggest that Ogden's second proposition is no where to be found in your writing. Am I correct?

With best wishes for your continuing work and with gratitude for your interest, I remain,

Yours cordially and sincerely,

Thomas C. Oden
