Dear Milton and Dixie:

It was good to hear from you and to re-establish contact with you.

We are enjoying Houston a great deal. It is an entirely different setting for me and a very stimulating one. I am teaching a seminar at the Institute of Religion and will be here through the middle of August. If there is anything that might bring you to Houston during that time, we would be delighted to see you and have you as our guests in our apartment.

Enjoy hearing occasionally from you through your newsletter. Let's get together whenever we can.

Yours cordially and sincerely,

Thomas C. Oden
