

I did wall window and roof inspection with the roofing inspector  
We met with verdin Bell Company to see how to do the maintenance (It will be a \$600, 00 saving a year)  
I changed light throughout the building.  
I did two setups for Prime timers.  
I put together a cabinet for PMO, and hung a new bag hanger with 10 hooks and put up a hand sanitizer  
and a plastic bag holder I cut off the lock in the green room for the second time.  
I worked with the organ repair company to get the organ back on line.  
I called the roofers to put some tiles back on the roof of the sanctuary while we had the lift here.  
I worked with the electricians to see what the problem was with the porch lights outside the sanctuary.  
I took old paint light bulbs and batteries to the dump.  
I removed all tables from the soul café and put and set up for charge conference.  
I worked at the parsonage here is the check list of things that were done.
