Dear Hilda,

Thank you for your letter and expressed desire to have better communication throughout the church.

It was this same desire that led us in the first place to make the changes that are now in effect. The decision to do what we are presently doing was affirmed by the Council on Ministries and carried out by the staff at my bidding.

I am sending your request to the Work Area on Communications where it will receive the serious consideration it deserves. They, in turn, will report their findings. If changes are indicated, the staff will carry them out.

Thank you for your leadership in the church and particularly as President of the UMW.

With all good wishes,

Sincerely,

W. Eric Carson
