Dear Brother Harris:

I am enclosing herewith a copy of a book review which I did and had reproduced in the Mialing and Duplicating Department at Taylor University. Please examine the work, overlook the fact that it was not submitted to me for proofreading, and see if you think this sort of reproduction would have an appeal for the WTS papers. I hardly know myself, but this is quite attractively done and very legible. Of course we could have a different kind of cover on it if we liked.

Peisker is investigating the cost of printing at the Pilgrim Publishing House, but so far I have now word from him.

Dr. Ralph Thompson writes me that these is available \$ \$187.98 for the reproduction of these papers. Of course the estimate for 500 copies which you sent to me from the Morris Printing Company is \$360.00. This approximately ~~one-half~~ double the amount of money that is available for such a job. Thompson says not to figure on any more than the above amount.

I could get this reproduction job done at Taylor University for approximately \$100.00 for 300 copies. If we wanted 450 copies it would be approximately \$150.00. The masters will do only about 150 copies each, and so above that number they have to make new masters and this just doubles the cost. They might do it during the Christmas vacation—that is during December 15-January 31 if we had the materials to them. However, I do not know that this would be what the men would want. Whatever is done will have to be within the amount of money that is available, and I do not believe that anyone will print it for the money we have available. What do you think?

The papers are now in the hands of Dayton and Peisker for reading, except Geiger's. I have written him for his, but so far I have had no response. He may come through presently. The men are finding the papers in good shape. It seems that it would be the responsibility of the editorial committee to determine which papers should be published, as such is generally the function and responsibility of such a committee. The men seem to think that all the papers submitted are worthy of publication. Of course this does not include Earle's and Taylors, as they have been published.

Your need not return this review. Please give me your advice in the above matters.

Sincerely in Him,

*Chas. W. Carter*
