Dear Jim:

Received your letter of April 13 and was glad to hear of your work with the House Church.

You asked about current materials in worship. I have been very much impressed with the materials I have received from the Vintage Press under the general title, Kaleidoscope. They are working very experimentally with multi-media worship. I think you might find it interesting.

It's good to hear from you. My highest regards to John Cobb and others we know mutually in Southern California.

Very cordially yours,

Thomas C. Oden
